# FAURIA VENETIAN BLINDS ... Modern ... Decorative

For our varied Southern climate, Fauria Venetian Blinds offer practical protection for every opening in the home or public building.

Built of specially selected wood, these individually tailored Blinds offer the acme of mechanical perfection, and are unsurpassed in their beautiful appearance.

Fauria Venetians guarantee permanent economy in beauty, comfort and utility.

## Fauria Features

**WOOD.** Only selected wood assures lasting satisfaction in our ever-changing Southern climate.

**BALL-BEARINGS.** The entire weight of the Fauria Blind is on Ball-bearing Rollers. This means silent action and longer service.

**SELF-LOCKING TILTOR.** Smooth, positive action of this new patented device controls and locks each slat at any desired angle.

**AUTOMATIC CORD STOP.** The finest ever patented. Eliminates tying cords. Slight touch releases blind. Positively fool-proof.

**FINISH.** Fauria's full 3-coat finish—smooth and glass-like—makes the blind impervious to heat and dampness. Beautiful, lasting and readily cleanable.

**COLOR SCHEMES.** Decorative possibilities are unlimited in Fauria Venetians. Available in delicate tints, matching colors and in striking tape combinations. Truly, custom-tailored are Fauria Venetian Blinds.

---

FAURIA VENETIAN BLINDS are "manufactured in the South for our Southern climate." Over 60 years of successful manufacturing experience is back of every installation.
